CHALLENGING GENDER STEREOTYPES

ivy house
LONDON

For us, and our clients

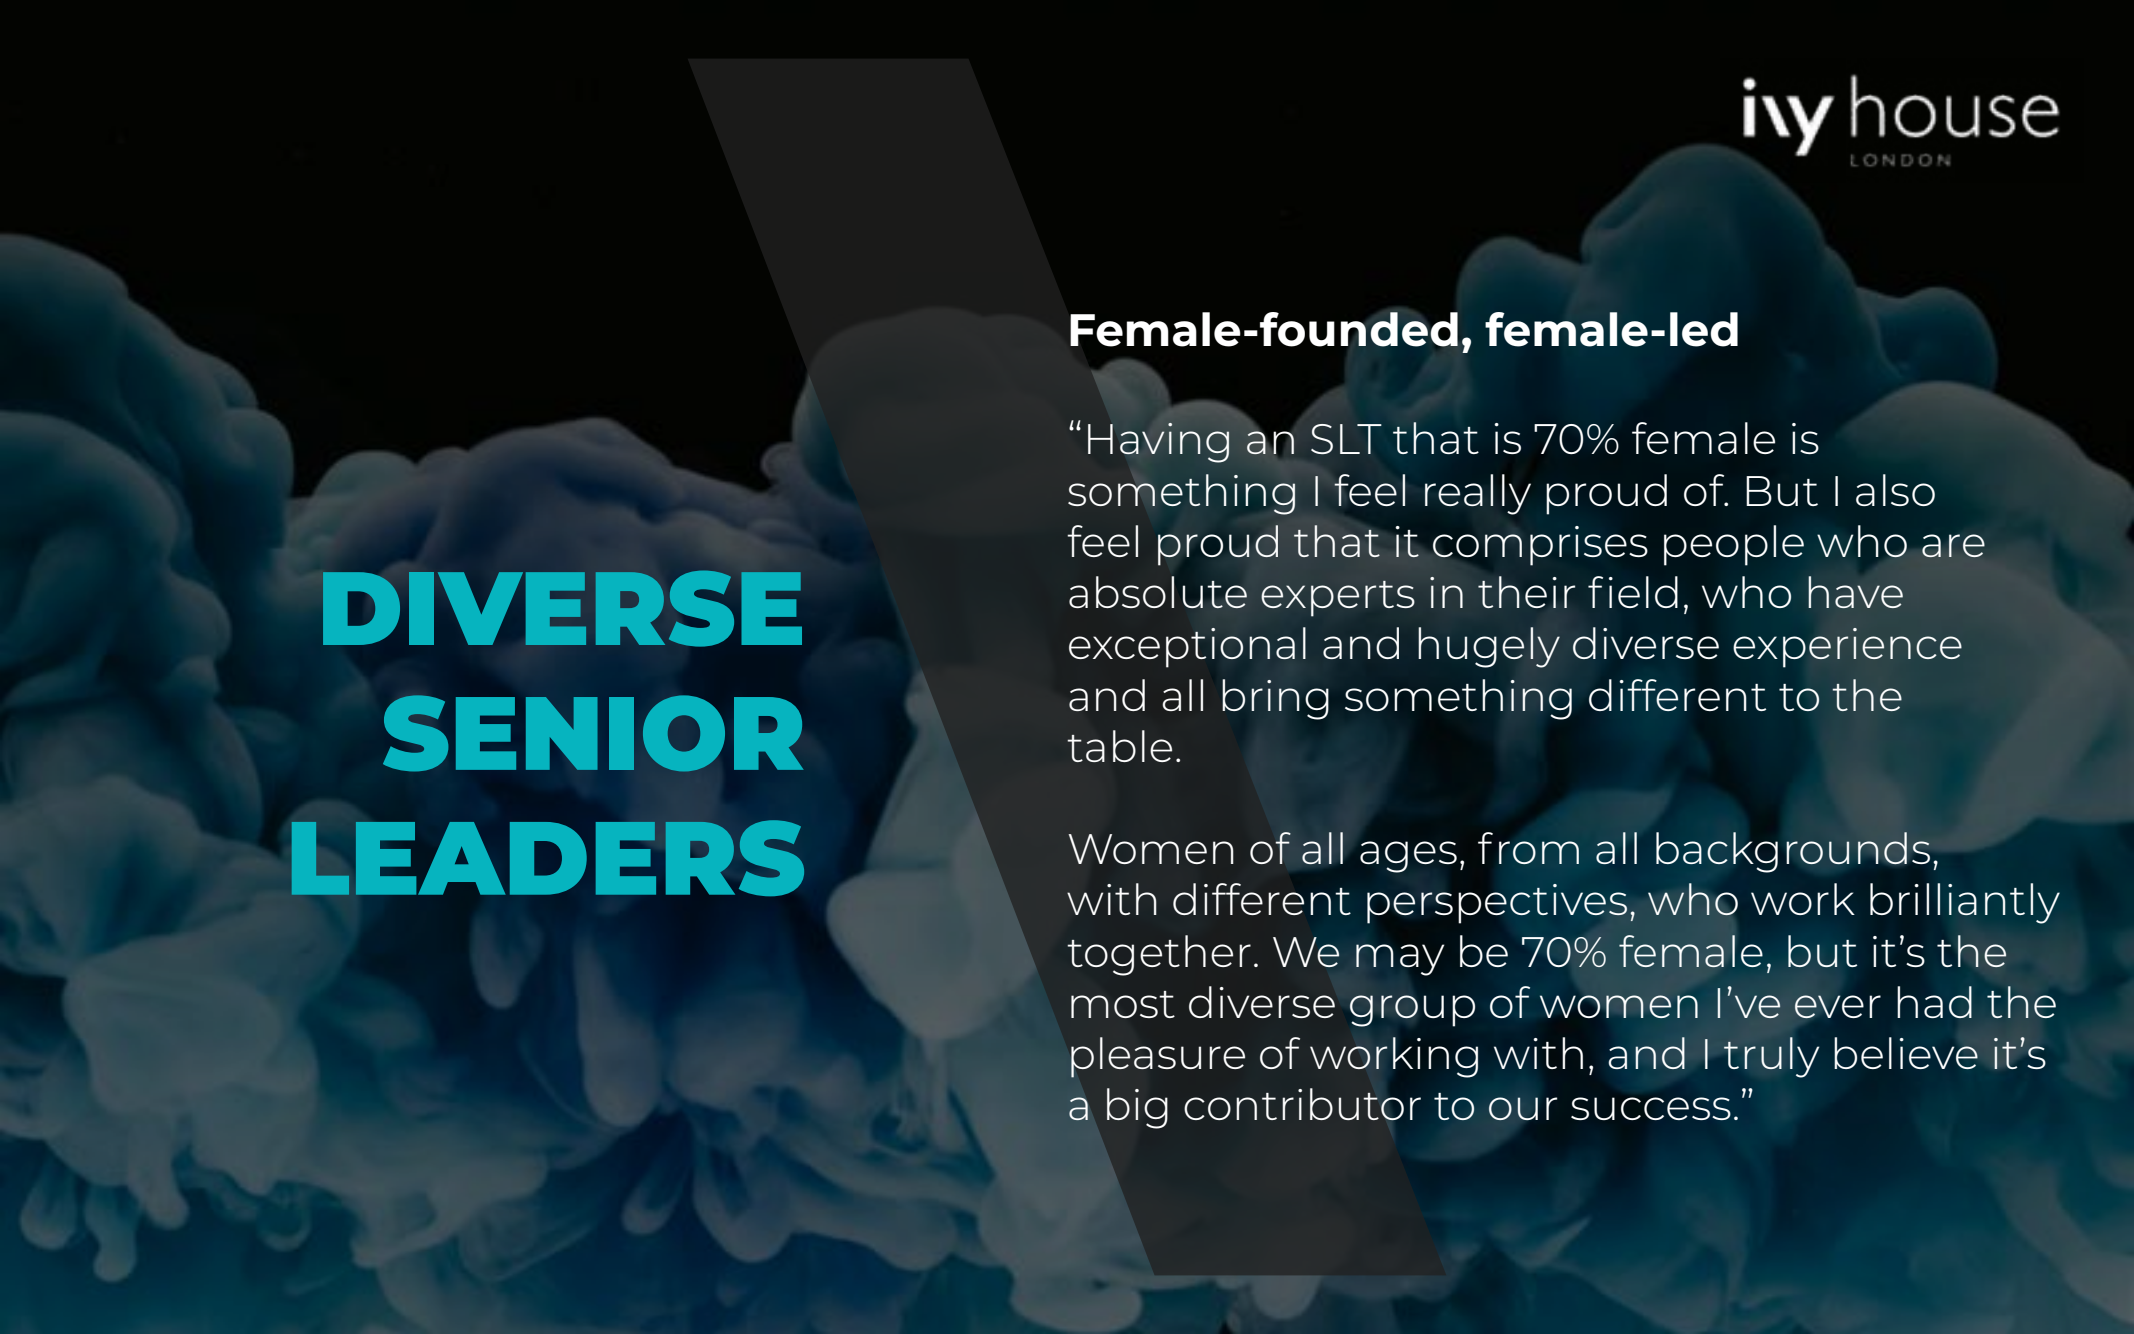
“We help women to work on their mind-set and overcome limiting beliefs - often these may be linked to gender stereotypes e.g. ‘I can’t do xxx as a mum’ or ‘I’m not assertive enough’.

Our programmes and our amazing coaches help to improve overall self-esteem and ambition.”

We champion all voices

“Everything we do and teach is about the value of all voices - and the importance of really hearing everyone.”

“From panel events to Future Leaders of the Year - we’ve given lots of incredible women a platform to voice their ideas, opinions, and goals. I hope we continue to do more in this space.”



DIVERSE SENIOR LEADERS

Female-founded, female-led

“Having an SLT that is 70% female is something I feel really proud of. But I also feel proud that it comprises people who are absolute experts in their field, who have exceptional and hugely diverse experience and all bring something different to the table.

Women of all ages, from all backgrounds, with different perspectives, who work brilliantly together. We may be 70% female, but it’s the most diverse group of women I’ve ever had the pleasure of working with, and I truly believe it’s a big contributor to our success.”
